

Task Paths: Paper Prototype and blank pages

Task 1

Scenario	Task
In your Anatomy and Physiology class the other night, the professor described blood flow in the canine heart, but you are not sure you got all the details correct.	Use the website to find the discussion of blood flow in the heart.
Procedure	
Select Organ Systems	
Select Cardiovascular	
Select The Heart	
Select Blood Flow Through the Heart	

Task 2

Scenario	Task
Now that you've read the discussion of blood flow, you would like to look at the animated diagram.	Use the website to find the animated diagram of blood flow in the heart.
Procedure	
Select Organ Systems	
Select Cardiovascular	
Select The Heart	
Select Blood Flow Through the Heart	
Select Blood Flow Through the Heart diagram	

Task 3

Scenario	Task
In your Anatomy Lab, you dissected the heart. You find that you retain your anatomy better if you draw and label your own diagrams.	Use the website to find diagrams of the heart that you can color and label.
Procedure	
Select Organ Systems	
Select Cardiovascular	
Select Color	

Task 4

Scenario	Task
Recently at the veterinary hospital where you work, the veterinarian told you the dog you are restraining for examination has congestive heart failure.	Use the website to find information on congestive heart failure.
Procedure	
Select Organ Systems	
Select Cardiovascular	
Select At the Clinic	

Task 5

Scenario	Task
You want to test your knowledge of the heart.	Use the website to find review questions on the heart.
Procedure	
Select Organ Systems	
Select Cardiovascular	
Select Quiz	

Data Collection Log

I will have a sheet of paper for each participant to log errors and comments. I will make a check mark in the Menu Error and Frustration columns each time I observe the wrong menu option chosen or signs of frustration, respectively. I will tally any blank pages the participant filled out in the Blank Page column.
